Horn Hill Gala Day.

EPWORTH LEAGUE AND FOOTBALL CLUB HOLD PICNIC.

The annual picnic of the Horn Hill Football Club and the Epworth League of Horn Hill and Penhold was held on the beautiful grounds of George Domney on Friday last 24th of July. There was a large attendance of settlers and a fair number from Penhold and Red Deer. The day was an ideal one for a picnic and all seemed to enjoy the outing to the utmost. There was games of all kinds, and a football match between Pine Lake and Horn Hill, a game between Horn Hill and Penhold Juniors and between Horn Hill and Clearview Juniors. There was a program of music and recitations by the League, there was a stand where ice cream, soft drinks, candy and fruit was dispensed to the multitude and the amount sone of the juveniles stowed away was marvellous in the extreme. Rev. Mr. and Mrs. Huestis of Red Deer and Rev. Mr. Rogers of Penhold were present and helped to enliven the proceedings.

There was an organ on the grounds and the following program was given:

Duet by Ruth Hives and Mrs. Wigle
Duet by W. Parcels and Mrs. Wigle
Selections by the Choir
Recitations by Jack Oldford and Bruce Cox
Solo by Miss Newland
Instrumental by Mrs. Wigle
Selections on the grammophone

There was also a good program of sports, T. P. Parcels being master of ceremonies and starter;

100 yd foot race—1st W. Parcels, 2nd L. Domoney, 3rd A. Carswell.

Cowboy Race—J. Kidner, G. Scannel

Standing High Jump—W. Parcels, L. Domoney, E. Bawtinheimer

Running High Jump—F. Towers, W. Parcels.

Hop Step and Jump—W. Parcels, L. Domoney, F. Domoney

Broad Jump—W. Parcels, L. Domoney, F. Domoney.

Boys Race, 10 and under—C. Quinton, T. Leathead

Married Womens Race—Mrs. E. Pye, Mrs. W. Inglis, Mrs. R. Dixon

Partner Race—1st Leonard Domoney and Jennie Deas

Girls Race under 10—F. Greening, Belle Pye.

Girls' Race under 10—1st Gwen Richards.

Old Timer's Race—Lige Pye, L. J. Carswell, Dan McKinnon.

The football match between Pine Lake and Horn Hill was keenly contested throughout. The home team scored in the first half and they had decidedly the best of the game, but in the second half Pine Lake played better and scored a goal making the game a tie as no more scoring was done. The visitors perhaps had a little the best of the game in the last half. W. Panschot refereed satisfactorily.

The Juniors of Horn Hill put it all over the Penhold youngsters by three goals to nothing. The game was very amusing at times.

Later in the evening the Horn Hill youngsters played Clearview in a most exciting game but no goals were scored. W. Towers refereed.

NOTES.

Lige Pye was under the weather, an unusual thing for Lige.

John Greening is recovering but he thought he would have to go into dry dock and have his gizzard scraped before he would be all O.K. again.

Geo. Parker, Bob Leathead and Elias Vincent were all waiting for the hail storm which came on schedule time the next day.

Fred Carr, a young gentleman from Calgary, was very attentive to one of the local belles.

Andy Shields said this country would be all rignt when all the kickers had moved out.

Bob Dixon had a story, of course it was a good one but we will not publish it this week.

Tom Wells had a blood curdling story of his narrow escape in attempting to take Mr. Black to see the doctor.

Rev. Mr. Rogers vividly described a smash up he had the day before and the exciting time his team had rushing up the railway track with the front wheels of Mr. Oldford's democrat ahead of a train.

David Parker, the patriarch of Horn Hill is moving to the coast again.

George Domoney's new residence is nearly completed, John Greening is building a nice new barn and George Parker has his new barn nearly completed.

If Bill Inglis had been at the picnic with the rest of the old timers our joy would have been complete.

What Have They to Offer?

(Edmonton Journal.)

What have the Conservatives to offer in exchange for the present government? They offer a clean government, and honest appropriation and expenditure of the public money; the developement of the arterial highways of commerce such that the products of the country can be exported at the minimum rate and with the greatest possible speed and in the best condition. They will improve our shipping ports and provide transcontinental and transoceanic cold storage facilities; they will improve the civil service such that the outside man will be placed on the same footing as the inside man; they will make a careful selection of immigrants; they will give the farmer a free delivery of the mails such as is obtained in the larger towns and cities; they will give the country a tariff policy such as will benefit the producer, the workingman and vested interests alike; they will promote a system of mutual preferential trade within the empire and they will restore to the western provinces their public domains. It will follow after the return of the Conservative party to office, that there will be a general cleaning out of the departments at Ottawa; supplies will be purchased on tender and the country saved the middleman's prices; the timber leases will be cancelled as well as the fishery leases and the death-blow dealt to contractors and the middlemen who are now sucking the life-blood out of the country and the services of a host of officials who do nothing but draw their salaries and live upon the product of other people's work will be told to earn their living. There will be a reform from the bottom up. Mr. Borden has pledged himself and the party to give Canada an honest administration of our public affairs and the people are determined to test them. If they do not carry out their promises, then it will be for the people to try their opponents again. The country cannot possibly suffer by the change. It cannot by worse governed than it is at present. In bringing in a new government, the country stands to gain on every hand. The present administration is clogged. The superstructure has become honeycombed with corruption and graft within graft. It is falling to pieces. The men who have brought about this state of affairs are beginning to realize that the tide of public opinion is running strongly against them. They have played their last hand. Millions for railway corporations, millions for public works, which are never intended to be spent, millions for preliminary works which is expected to dazzle the eyes of the people, and who will deny that in this spectacular play there will not be provided the sinews with which the government hope to carry the country in spite of the honest convictions of the majority of the electorate? It has been painfully evident the last few years that the public treasury was being continually raided for party spoils, but the fearful plunge taken in the last hours of the session has eclipsed anything in the history of the country. It was reckless, it was extravagent. They accuse the Conservatives of talking "blue ruin" but "the optimism of today" as Mr. Borden said "will not pay the debt of to-morrow." Our trade is falling off, heavy loans are maturing, our bonds are sacrificed and unwritten, our obligations are becoming more and more oppressive, then why at this moment enshackle us with a still greater burden when the present load is more than we can carry? Why not let the country recover from its depression of the past year? No, if there were no elections to be held this fall, there would not be all this vast amount voted for public expenditure. The government are out to get back into office, and they know their carreer cannot bear scrutiny and they have resolved on the spectacular plunge.

QUEBEC BRIDGE OUTRAGE.

The People Must Pay All The Tremendous Liabilities of the Collapse.

BUT FAVORITES IN THE COMPANY INSURED A PROFIT ON SCANDALOUS AFFAIR.

Ottawa, July 17.—In the house of commons this morning Mr. Chisholm (Antigonish) submitted the majority report of the committee appointed to investigate the financial history of the Quebec bridge. He argued that the mild conclusion of the report was justified. He contended that the government had taken all the precautions that would be expected with the knowledge then available. The regrettable acoident was wholly due to the trusted consulting engineer, Mr. Cooper.

Mr. Chisholm seemed disposed to congratulate the government in having its way clear to take possession of the million dollars' worth of abutments, a million dollars' worth of approaches, and a million dollars' worth of iron. He held that the liabilities were not much over $6,000,000.

Mr. Monk followed with a strong arraignment of the government and company. He told how the company refrained from putting up their own money, spent all the subsidies and all it could borrow, and then came bankrupt to the government for help. The government should have paid what was necessary and taken over the work. Instead it guaranteed six or seven millions of the company's bonds.

As the responsible parties the government should then have taken some interest in the character and safety of the structure.

That was what the deputy minister recommended. He recommended the appointment of an expert supervisor. The company objected and no appointment was made.

The plans were, however, presented to the government whose bridge engineer pronounced them too weak. That was disregarded and the government did nothing but endorse the bonds.

It is now established that the company's engineers were without requisite knowledge and experience.

Here was the greatest bridge in the world under construction.

The government was paying for it and giving no attention to the matter.

The calamity occurred. Now it is proposed that the government shall pay all the bills, and take over the wreck. The company was to lose nothing. It was to be relieved of all obligations. More than this, it was to be paid back all the money put in. The directors were to retain all they had claimed as fees and salaries. They were to have an interest on their money.

Finally, they were to be allowed ten per cent. profit.

Mr. Monk begged Sir Wilfrid not to carry out this programme of which the government had given notice. True, the government must build the bridge and must pay its guarantee, but it was under no obligation to assume all the possible and unknown obligations of the company, and to meet the numerous claims which would be rushed in when the government became responsible. Much less should the government repay the company and allow the money to be put in with interest and profits.

Dr. Walsh (Huntington) one of the conservative members of the committee, argued in support the minority report. He pronounced the affair "A National Disgrace." He hoped that government would not, for purpose of implementing promises to friends, assume the obligations of the company and take over work which was probably without value.

The next attack on the bridge deal came from the liberal camp. Mr. Robitalle (liberal, Quebec county) gave his view of the inside history of the bridge company. It was highly uncomplimentary. He told how he had himself before the accident warned Sir Wilfrid Laurier of the loose methods. He declared that a large part of the alleged paid up capital was in worthless notes.

He followed with a strong attack on President Parent of the company, ex-premier of Quebec, speaking of the personal favors received by Parent from the bridge contractors.

Laurier and several other members called him to order, for these personal references, but Robitille got a chance to speak of men who were poor a few years ago and now were buying three thousand dollar pianos. Robitaille strongly protested against the government assuming every single obligation of the company.

Mr. Galliher (liberal) severely criticized Robitaille.

Mr. Parent, son of the bridge company's chairman, closed the debate, observing that Robitaille's attack was the last kick of a dying ass. The minority report was rejected by fifty-one to one hundred and three. The majority report was adopted.

Hon. Mr. Graham introduced a resolution authorizing the government to take over the bridge on the terms provided in the original contracts.

LET HER SLIDE.

Don't be stewing over nothing
All the while;
Don't imagine there is danger
In a smile.
There's for growling and for grouching
No excuse;
Fretting never gets you nowhere.
What's the use?

Chase away your dark forebodings
And your pets,
If dyspepsia will let you,
And your debts;
Feeling blue and fondly dwelling
On your ills
Never paid the stove installment
Or your bills.

Just as easy to be happy
As to cry;
You can touch a different button
If you try
That will make the sunshine banish
All the gloom
And will hardly give your trouble
Standing room.

If your walks in ways of gladness
You arrange,
Then your life will be worth living
For a change.
Get a laugh that shakes the rafters—
Turn it loose;
Fretting never gets you nowhere.

Swell Writing Material.

Uncle Sam, knowing that a senator's constituents are always anxious to get a letter from him, has generously provided each statesman with $125 for stationery, but the prudent uncle, knowing his children, makes them bring in an itemized bill through the clerk of the senate.

A perusal of these bills would indicate that some of the senators have queer notions as to what constitutes writing material.

The average man after spending 39 cents for paper and 20 cents for envelopes, 3 cents for pens and a nickel for a lead pencil wouldn't know what to do with the rest.

Is the senator handicapped by such limitations? Not he. Shaving material, scarfpins and a manicure set for his wife appear to him to be clearly in that category. It is only because the amount is so small that the senator does not classify automobiles as writing material.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.
Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood elements.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

The Advocate seems much surprised to learn that when a paper opens up a mud slinging campaign for purely political purposes, the party which it represents is bound to be fouled by the transaction. It thinks it time that the attempt to make out that Mr. Root is the whole push in the Alberta ranching district should be called in. As Mr. Root's record in relation to the ranching business is a matter of history it does not need to be defended by either himself or his friends. But when subsidized papers like the Globe and the Advocate start to knocking this good work (which by the way was performed without subsidy) and knocking the cattle business through their attacks upon the individual worker, simply because he is a Conservative candidate they are entitled to the truth about their own party workers and to "git a plenty while they are gittin." We do not wonder that the Advocate fails to relish a reprint of the speeches made by Mr. Puffer, M. P., Senator Talbot and Minister Finlay. But to the man engaged in raising cattle for market, they mark a mile stone. Nothing more clearly defines the progress made by the Ranchers Association than a comparison of the attitude of these men toward the live stock industry when these speeches were made and their recent stunts in spriuting to climb in the band wagon and appear to lead the movement in favor of extension of our cattle markets.

The Advocate states that the Dominion Government "by its grant of 30 per cent. toward cold storage facilities, is aiding in the establishment of the Swift canning plant at Edmonton, and the Malcoim canneries at Medicine Hat." Is this another "currently reported" item? The cold storage act took effect March 2nd 1907. In Jan. 1908 Minister Fisher stated that only three concerns had applied for grants under that act, two in the East and the Edmonton Produce Co. in Alberta. Later the government was asked who were the Edmonton Produce Co. and replied that it did not know. The gentleman who had done the correspondence with the government was dead. But the Advocate says that the Edmonton Produce Co. is Swift and the government brought into existence the Malcolm and Swift canning plants. Mr. John Campbell of Loydminster claims that Mr. Duncan Marshall of Edmonton declared before an audience of 150 farmers at Kitscoty, that the Alberta Government had decided not to proceed with the erection of a pork packing plant till such time as Swift & Co., who are establishing a plant at Edmonton, will have been given an opportunity of assisting P. Burns & Co., of Calgary, to keep the people of Alberta from starving for the small sum of several inflated dividends." (The Alberta Homestead). Any people who are hoping for results from the recently appointed Pork Commission would do well to meditate upon the information afforded by the Advocate and by Mr. Campbell. If the Advocate wishes to disabuse the mind of the idea that Mr. Root's criticism of the Government is prompted by political aspiration it would do well to republish the General Discussion at the Erskine Convention showing that the work of this Association was an eyeopener to many members of the attitude of the government toward the people and toward the monopolies.

Who is Responsible.

(Calgary Herald.)

The death of a little child in Calgary, a few days ago, owing to a doctor not having been called in, brings up serious question. In the case referred to the child had been conscientiously attended for a year past by a Calgary physician, who had pulled it safely through a serious illness. The little one was almost well and playing about outside. Suddenly the doctor was sent for again and found the child dead. It had been ill for three days, but he had not been notified. Its illness according to the post mortem was not serious and might have been easily relieved and the life probably saved.

The child's mother, being member of one of those sects which believed in curing by faith, had neglected to summon aid but had "held the child up to Chirst." The child, of course, had no voice in the matter.

Granting that the child might have been saved by medical attendance, the point is, what right has the mother to sacrifice its life to her religious conviction? If grown people want to experiment on themselves in this manner it is their own business. But does the law permit them to refuse their children the recognized means of relief in sickness or pain? If so, it does not seem fair to the children.

Toronto and other eastern cities have suffered from several cases of this kind. The responsibility of parents should be settled with as little delay as possible, in this province at least.

Town Council.

The regular meeting of the Town Council was held on Thursday evening last Councillors Botterill, Gaetz, McKee and Tallman in attendance, the Mayor in the chair.

The C. P. R. wrote regarding water for the stock yards suggesting a well be dug to water stock, as it was thought impracticable to have stock watered by yard engine.

Some correspondence was read between W.L.Walsh, of McCarthy & Walsh, Calgary, and the mayor regarding the sale or lease of the mill property. It is hoped that a purchaser will be found for the property at a figure about $12,000, and if this is not done then the property will be leased.

The department of Agriculture wrote suggesting that the Council co-operate with the department towards lessening the ruthless slaughter of ducks on the day of opening of duck season.

The secretary of the Council of Okotoks wrote for information re debentures.

John S. Hall, Sec'y Union of Alberta Municipalities wrote acknowledging annual fee for membership to the Union.

COMMISSIONERS REPORT.

The Commissioners reported having purchased three patent mending hose sleeves for repairing hose at a cost of $3.50 f. o. b. Winnipeg.

They have solicited bids up to Aug. 15th for $4.500 waterworks extension debentures.

They reported cutting of weeds on the streets.

The foreman has been instructed to shut off the water from pipe near the rink.

Chief Meeres has been notified to charge for weighing hogs in the future for 4 or less 15 cents, over 4 three cents each.

The filter bed at the intake has been completed also the new foundation for the pump at the power house.

Mr. Walsh, representing the Stratford Mill Co. had an interview with the Commissioners and the proposition made to him for the Stratford Mill Co. is shown in the correspondence.

They had an interview with Mr. Stent re the water from the laundry and on Mr. Stent's stating that he would put disinfectants in the water coming from the laundry, the matter was allowed to stand. The cost of connecting the laundry with the sewer would be about $800 and they hoped the town would be in a position to do this work in the fall.

Mr. Allan has asked to be relieved as clerk in the secretary's office and they recommended the appointment of Mr. Dowsett to fill the position at $50 a month.

A number of by-laws were submitted for the approval of the Council.

The report was adopted.

A NIGHT OF BY-LAWS.

The vote of the property owners will be taken on Tuesday, August 25th.

A by-law was passed appointing A. T. Stephenson secretary-treasurer for the municipality at a salary of $85 per month and also appointing him Commissioner.

A by-law was also passed to assess and levy rates for municipal and school purposes for the year 1908. The rates are for general assessment 12½ mills, for debentures 5¾ mills and for school purposes 6¼ mills, but this will be only 23 mills if paid before Oct. 1.

A by-law was passed to assess and levy a frontage tax on land fronting or abutting on water mains. The tax will be five cts. per foot.

A by-law was passed calling for an election to fill the unexpired term of office held by A. T. Stephenson Councillor resigned, nomination will be held on Aug. 18th and election Aug. 25th.

A Railway Meeting.

A meeting attended by about 150 farmers living in the Three Hills country was held at the Three Hills Post office on the 17th instant, for the purpose of voicing the need and demand for railway transportation through that section of country and discussing ways and means of bringing this need more forcibly before the Government, the railway people, and the public generally. Mr. Granger was made chairman and presented very ably the objects of the meeting, after which the following resolution was read:

That this district, being now thickly settled, it has been conclusively demonstrated that it is destined to become a great and important grain raising portion of the Dominion, and that further development and advancement is being retarded and became impossible owing to the absence of railway transportation, and is being threatened with depopulation on that account; and this meeting pledges itself to take every legitimate means in its power both through its Parliamentary representatives and by any other course necessary or desirable, to secure the immediate introduction of a railway.

The resolution was supported by a number of very enthusiastic and pertinent speeches, after which it was carried without a dissenting voice.

A committee composed of Messrs. F. W. Granger, C. Hiebert, M. P. P., R. A. McKay, and Capt. L. C. Eikenfelder was selected to wait upon the Government and several railway companies to present the opinions of the meeting.

Those present were so earnest in their desire that the policy outlined in the resolution adopted should be carried into effect that it was arranged to collect several hundred dollars to defray the expenses of the committee named to place it before those in a position to act.

The meeting was attended by representatives from Trochu Valley, Sunnyslope, Carbon, Rodenville, Tapscot and Ghost Pine.

L. I. D. 19-T-4.

Met in the P.O. Block, Saturday last, all members present.

The minutes of last meeting April 11, were read and on motion of G.T. White—W. J. Reay were adopted. Correspondence was read by Secretary. The following resolutions were put and carried.

W.J.Reay—Jas.White that the Councillor for Division No. 2 take forms of agreement to the parties interested in the application for road between Secs. 1 and 12, 38-26, and get a new agreement in which they deed the road allowance free.

Jas. White—Geo. White that the Sec'y be instructed to apply to the Department for forms of lease for land that has been taken for roads.

Resolved that the Sec'y be instructed to write the Department giving information regarding the work done between Sec. 4 & 5 37-27, calling their attention to the probable waste of labor and money unless aid is given by furnishing the tile.

Moved by Jas. White—W. J. Reay that the following accounts be paid: Cushing Bros. $47.83; Staples & Co. 46.53; Stewart Bros. 50.28; Wilson Bros. 5.25; D. Henshaw $2.00; Duncan Code 4.00; Gaetz & Gaetz 3C. Carried.

Geo. T. White—W. J. Reay that the Sec'y be instructed to notify all parties in arrears for two years and give 30 days in which to make payment and after that date place them in a solicitors hands for collection.

WEDNESDAY, JULY 29th, 1908.

IT IS TIME FOR A CHANGE.

Although the Laurier government has been raked fore and aft by the guns of the opposition and corruption exposed sufficient to send a dozen governments into outer darkness, do you, gentle reader, for one moment think the evil has been checked or one jot or tittle of the vile stream stayed?

Not a particle.

The Liberal leaders have gone too far in their evil ways. They can only float with the corrupt stream, they cannot go against it or dam it. They dare not. It must go on increasing in evil until the government is thrown out of power.

Look at their record.

Millions for railway subsidies.

Millions for public buildings.

Millions for graft and corruption.

In Nova Scotia alone no fewer than one hundred and forty-eight harbors will be given government aid at an outlay of hundreds of thousand of dollars.

Wherever money can be spent it is poured out like water.

Our timber is given away to grafters.

Our fishing rights and privileges given to political favorites.

Our lands and minerals taken from us for huge trusts to fatten on.

Our citizens deprived of their rights as free men.

Down in Algoma a few party favorites got 30,000 acres of land belonging to the Indians for a song and cleared up over $90,000 on the deal. So it goes on throughout the Dominion.

The public debt is now over $100 per family of the population of Canada and it is still piling up.

Foreign money markets are becoming alarmed and our bonds are a drug on the market.

It is high time for a change.

BRITISH CATTLE EMBARGO.

There is no doubt that Mr. Root's fearless criticism of the misleading statements contained in the Veterinary General's reports of diseases of Canadian horses and cattle and its damaging influence abroad, where the Canadian Blue Book is relied upon as being absolutely correct, is bearing good fruit in attracting public attention to the obstructions to better markets in the path of the breeder and shipper. Even the Red Deer Advocate comes forward with a statement that "it is interesting, however, to note that at a recent conference between a deputation of cattle men and the present government, there were symptoms of a CHANGE in public opinion." It then proceeds to report what the Prime Minister said to the deputation. As this is exactly what Sir H. Campbell Bannerman claims, in his speech on the floor of the Commons April 6, 1906, that he said to a deputation of farmers in 1905, we fail to see that any change has occurred except in the attitude of the Red Deer Advocate and the Liberal Candidate. The latter seems to be most anxious to get in on this cattle question somewhere, and though he has lived in Alberta six years without taking any interest in the organized work of the farmers and ranchers, and though he has been making campaign speeches for 8 months in the present campaign it was not until two weeks ago that it occurred to either his friends or himself that he could claim to have been a "Hercules in Jayville," without much fear of contradiction. But in all great work there is a continuity of events and what the Advocate now owes the public is a clear statement of the connecting links between being a paid campaigner for an English candidate and being a farmer candidate in Alberta. In all the speeches reported as emanating from Dr. Clark since his nomination in Red Deer up to the present time we fail to find a single sentence favoring the removal of the Embargo. Let the Liberal press sustain their position with facts capable of demonstration or call it off.

The C.P.R's. Good Work.

There is little room to doubt that the Canadian Pacific Railway, says the Edmonton Journal, immaterial how much one may disagree with its business methods, has done more for the settlement of this Great West than the government of the country. In every nook and corner of the old land, they are advertising the merits of the West. They bring settlers into the country for almost nothing, and they sell their own lands on the most favorable terms. In scores of instances, settlers too poor to come otherwise, have been brought in free. It is good policy, of course, for the C. P. R. to advertise the country and bring in immigrants at the most favorable terms. Every settler ensures so much more revenue for the road later on. If the work of the C.P.R. in developing the west by attracting immigrants were deducted from the entire immigration propaganda, the portion left to the credit of the government would be infinitesimally small indeed. The government is taking more credit to itself in this connection than it deserves, or that it is in any way entitled to.

When in opposition Sir Wilfrid Laurier characterized subsidies to railways a "frightful source of jobbery, speculation and corruption." By legislation just passed he and his followers have placarded themselves, by their own words, as a gang of jobbers, speculators and corruptionists, as no less a sum than thirteen million dollars has been granted this year for subsidies alone.

Hillsdown.

The picnic arranged for July 23rd by the ladies of Hillsdown in connection with their sale of work passed off most successfully. The weather was favourable, a cool breeze reducing the temperature to a more tolerable degree than we have had lately. Trap-shooting, baseball, and football were the principal items on the programme, with races for the children.

The refreshment stand was well patronized, the Mesdames Moir, Moschewrosse and A. Rowell, and Miss Fiske, who so gracefully waited on the customers, having their work out out to keep up the supply of ice cream and cooling drinks. Mrs. A. Heyworth presided over the sale of work, and the proceeds of the day amounted to just about $40, half of which was made on the refreshments. The above amount will provide a free cot in the general hospital recently opened at Vegreville.

The crops in this district are looking splendid, and it will not be long ere the hum of the binder is heard in these parts.

The growth of vegetation during this month has been most remarkable, radishes maturing from seed in 24 days.

PORK COMMISSION.

A Sitting of the Pork Commission will be held in Red Deer, Thursday, July 30th, commencing at 2 p.m., in the Council Chamber.

Any person having evidence to give upon the conditions surrounding the marketing and handling of pork and pork products in the Province, and the advisability or otherwise of Government establishment of or assistance to a pork plant or plants, and with reference to the cost, capacity, plan of management and scope of operation thereof, or the best means of securing for the hog raiser a fair price for his products, is respectfully requested to attend.

E. TROWBRIDGE,
Secretary

Another Warning.

The Customs revenue of the Dominion Government in March of 1908 was $900,000 less than in the same month of 1907. The revenue from this source in June was $1,600,000 less than for the same month of last year. For the four months ending with June receipts from Customs were $5,300,000 below those for the same four months in 1907. These figures constitute another warning of the danger that will be involved in continuing the course of extravagance which now prevails at Ottawa. With a falling revenue at home and an increasing interest charge abroad, the necessity for putting the brakes on the spending departments should be clear enough to impress itself even on the most obtuse of the Government's Parliamentary following.—Exchange.

A Time For Caution.

The Weekly Sun, the leading organ of the farmers of Ontario, and strictly independent, says:

Careful attention should be given to our Ottawa letter on page 7 dealing with the partial failure of the Dominion loan recently floated in London. The Government, as stated in that letter, recently offered securities aggregating $25,000,000, drawing 3 3-4 per cent. and yet less than half the amount has been taken up by investors. In 1897 the Government floated a loan of close on $10,000,000, bearing 2 1-2 per cent., which sold at over 91 1-2, thus making the actual rate of interest 2.86. To-day a somewhat larger loan, carrying nearly one per cent. more of an interest charge, is largely left in the hands of the underwriters.

Why the difference in the two cases? It is partly accounted for by the present condition of the money market. The main reason is found in the enormous increase in the scale of national expenditure which has since taken place and in the wild talk of stupendous additions for the purpose of carrying through gigantic canal schemes and a railway to Hudson Bay.

What the situation demands is that the country shall be given time to adjust itself to the burdens already imposed before fresh loads are piled on.

Irrigation Convention.

Present indications are that the Irrigatian Convention to be held in Vernon, B.C., during the week beginning August 10, will be one of the most important gatherings of the kind that has ever been held in Western Canada. Among the notables, whose attendance will contribute to the prestige of the gathering are Lieutenant Governor Bulyea of Alberta, Liutenant-Governor Forget of Saskatchewan and Hon. F. J. Fulton, Chief Commissioner of Lands and Works. It is expected also that there will be a particularly strong representatation of irrigation and forestry experts, officials, members of Land and Colonization organizations, and others particularly interested in the important subjects of irrigation and water legislation.

It is to be hoped that local Irrigation and Irrigation Colonization Companies, agricultural, horticultural, forestry and live stock associations, municipal corporations, boards of Trade and similar organizations, will lose no time in appointing the number of delegates to which each is entitled. There is scarcely a section of Canada which is not directly interested in problems connected with the distribution and concentration of water, forestry, etc., and all should make a point of taking advantage of their right of representation at this important Convention.

Delegates and their wives make the return trip to Vernon, the centre of the premium fruit growing district of British Columbia, for single fare.

Pillmakers Liable.

Toronto, July 2C—Application was made to Master in Chambers Cartwright to-day by the World's Dispensary Medical Association to strike out the statement of claim of Robert Marsh, who is suiug for $5,000 damages for his three-year-old child, and $3,000 for himself, because of the serious ill-effects upon the child caused by having eaten some of the pills of the dispensary.

These pills had been left at the door as a method of advertising and the child had secured them. Marsh claims that the child is permanently injured and has since been subject to weak spells, fainting attacks, vomiting and other troubles which will incapacitate him for years.

The master refused the application, holding that the dispensary should be liable for any injuries done.

"Supposing a man leaves candies in somebody's door, and a child eats them and dies. Is that man not liable, leaving them there unasked?" he asked. "Supposing a man leaves a bottle of whiskey unasked in a neighbor's home, and a child drinks it and dies. Is the man not liable? Or suppose I want to get rid of a dog and leave poisoned meat about where other dogs may get it. Am I not liable?"

The master also held that it was "a trespass, an unlawful and unlicensed act" for a vendor of pills to go to people's doors and leave his samples there.

The C. P. R. To Lacombe.

Wm. Whyte Says it Will Soon Be Connected With Moose Jaw.

Moose Jaw, July 21.—Wm. Whyte, second vice-president of the C. P. R., while in this city said: "We came out to see the crops and look over our lines, and the flour mill men and newspaper editors came along to help us size up the situation."

The prospects are excellent all along the line and there promises to be an abundant harvest. The weather on the whole is very favorable, and any backward crop is so limited that it is scarcely worth harvesting. Yes, the brief per cent. of depression seems to be passing. On the whole it has not been a bad thing for the country. We were getting too extravagant and the brief pause in our prosperity has tended to right matters a great deal, and all that is wanted now is a 100,000,000 bushel harvest in the west to completely restore the confidence of European money lenders in our ability as a people to meet obligations. That harvest is, I believe, forthcoming.

RAILWAY EXTENSION.

The Moose Jaw extension to Lacombe will assuredly be completed this fall, the mileage being 123 from Moose Jaw. This will take the road beyond the Elbow northward and will provide transportation facilities for a larger proportion of settled districts. This extension is now receiving the chief attention of our construction department. The line west of Saskatoon has been graded right through to Battle river, the present terminus of the Wetaskiwin line eastward. In order to build the Moose Jaw extension I diverted our energies from this line, and therefore tracklaying this year will stop at the first divisional point west of Saskatoon. This course was justified by reason of greater settlement and extensive farming operations between Moose Jaw and the Elbow. The new yards for Moose Jaw will be completed. We have made a very substantial start, and at our January meeting provision will likely be made for the carrying out of all our plans in regard to yard improvements for Moose Jaw.

Mr. Whyte also said that the hotel at Moose Jaw would be closed, as the entire depot will be wanted for office accommodation.

Heat prostrates the nerves. In the summer one needs a tonic to off-set the customary hot weather Nerve and Strength depression. You will feel better within 48 hours after beginning to take such a remedy as Dr. Shoop's Restorative. Its prompt action in restoring the weakened nerves is surprising. Of course, you won't get entirely strong in a few days, but each day you can actually feel the improvement. That tired, lifeless, spiritless feeling will quickly depart when using the Restorative. Dr. Shoop's Restorative will sharpen a failing appetite; it aids digestion; it will strengthen the weakened Kidneys and Heart by simply rebuilding the worn-out nerves that these organs depend upon. Test it a few days and be convinced. Sold by Brown's Pharmacy.

In the Matter of Ella McLennan, Insolvent.

All persons claiming to be entitled to rank on the estate must file their claims with the proofs and particulars thereof, required by the said Act on or before the day of such meeting, after which day I will proceed to distribute the assets thereof, having regard to those claims only of which I shall then have received notice.

The Long Winter Evenings.

The long winter evenings,
To miss them is loss
When father is grouchy
And mother is cross
And none of the children
Dare open a head
Lest they should be sent
In disgrace off to bed.

How pleasant and thrilling
To sit round the light
And study arithmetic
Half of the night
And just when you're weary
And want to retire
To have to cut kindling
For next morning's fire

Or maybe to listen
When dear father finds
Dry subjects to read
To improve the young minds
And as he explains them
To make the thing clear
To have to sit up
And pretend that you hear.

The long winter evenings,
They soon speed away
When father and mother
Go out to the play,
And lucky they are,
As the knowing ones ken,
If the furniture lasts
Till they get home again.

A TALK ON MILK.

The following conversation took place on one of our streets recently:

"Have you used any milk or cream from the new Ayrshire Dairy yet?"

"Yes, you bet I have, and it is just fine too. Have you used any of it?"

"No, not yet, but I will just as soon as I get rid of the tickets I have got now. I think a firm that lowers the price of milk to five cents should be patronized by the general public."

"You bet, that's me too. I understand the greater share of the cream sold in town the past two years has been supplied by R. O. Fitch & Sons to the milkmen."

"Is that so? Well they are all right. I am going to give them a show."

"That's me to. Well good day."

The most of Men are more particular about the Fitting and Wearing qualities of a Shoe than of the Style.

We have remembered this in buying, and have a combination of the three qualities—Style, Comfort and Durability. They are made by the Slater Shoe Co., Ltd., and the Victoria Shoe Co. Both of these firms are specialists in Fine Shoes, and their goods show it. We have them in all leathers, in Tan and Black, at prices from $5.00 to $6.00.

Our Men's Pat. Leather Blucher and Men's Tan Blucher at $5.00 are exceptional values.
